### GENERAL CAPITAL PROJECT SUBFUND: DEL

The DEL subfund is established for expenditures associated with the site development at Sugarlimb Industrial Park for the location of a new manufacturing facility.

On October 29, 2012, County Commission approved Resolution #102912-A for the sale of property in the Sugarlimb Industrial Park to a European manufacturing company, namely, Del Conca USA, Inc. (See Exhibit 1 & 2). County Commission also approved Resolution #102912-B authorizing the submission of a FastTrack Infrastructure Development Application (FIDP) to the Tennessee Department of Economic and Community Development to support the project and partially finance the cost of site preparation/infrastructure improvements (See Exhibit 3 & 4). It would be necessary to construct an industrial access road to serve the proposed facility. Therefore, Resolution #102912-C resolved that a contract be entered into with the Tennessee Department of Transportation for assistance in the construction and completion of the proposed industrial access highway under the provisions of the Industrial Highway Act of 1959 (See Exhibit 5). Budget estimates attached (See Exhibit 6 & 7).

#### **EXHIBIT 3**

#### SITE WORK AND ACCESS ROAD

Seller will cause the following work (the "Site Work") to be performed on the Property:

1. Grading. The Property will be graded to create a pad site in accordance with plans and specifications prepared by Seller's engineering firm, Cannon & Cannon, based upon and in compliance with the results and recommendations of S&ME contained in the Report of Geotechnical Exploration, Project No. 1431-11-348A, dated November 13, 2012, a copy of which Buyer has received. Such grading plans and specifications include the following: Del Conca Production Facility Initial Site Preparation Plan, dated February 11, 2013, prepared by Cannon & Cannon, Inc. Any proposed modification of the scope of the grading work or of the grading plans heretofore approved by Buyer and Seller must be submitted to the other party for approval with a drawing highlighting or otherwise clearly indicating such modification. Any such proposed modification must be approved in writing by both parties in order to be effective. The contract for the grading design plan will be subject to Buyer's reasonable approval. The contract for the grading work will also be subject to Buyer's reasonable approval and will contain warranties with respect to the grading work. The warranty shall survive completion of the grading work for a minimum of two (2) years. The grading work contract will include the contractor's acknowledgment that Closing may occur prior to completion of the Site Work and that in such event the contractor will provide such subordination agreement, affidavit and partial lien waiver as may be reasonably required by Buyer's title insurer. Buyer will be named a third party beneficiary of the grading design and grading contracts. If the Site Work is completed prior to Closing, Seller will assign to Buyer Seller's rights under such contracts at Closing. If Closing occurs prior to completion of the Site Work, as provided in the Agreement, Seller will assign to Buyer Seller's rights under such contracts upon completion of the grading work. Seller will possess the right to enforce such contracts prior to the assignment and will cooperate with Buyer after the assignment in any proceeding to enforce such contract. The grading work contract will include the specifications and requirements to comply with the results and recommendations of the 5&ME report, which specifications and requirements have been approved by Buyer's engineer, Mallia Engineering Company. Seller will use S&ME for the purpose of Quality Control testing with respect to the grading work. Seller will permit Buyer's engineer or its agent to conduct Quality Assurance testing with respect to the grading work, the results of which will be provided to Seller. Seller will act to repair any quality deficiencies disclosed by such Quality Control and Quality Assurance testing within a reasonable time in order to prevent any delay in completion of the grading. Buyer acknowledges that it is not the intent of the grading design to be a substitute for the necessary engineering design of the foundations and structural components necessary to support the facilities to be constructed and the equipment to be installed therein, such design work to be done by Buyer's consultants and not as a condition of this Agreement. The grading will not be deemed to be completed until the site has been graded and compacted to satisfy the specifications and requirements heretofore approved by Buyer's engineer.

Seller shall provide Buyer, its consultants, employees and agents access to the Property to monitor and inspect all work on the pad site and installation of the utilities, and copies of all testing and inspection reports related to the Site Work. Buyer agrees to give Seller written notice of any material issue or deficiency that comes to its attention during Seller's work on the Site Work.

Seller will use its best efforts to cause the grading contract to be signed by February 28, 2013. The grading contract will obligate the contractor to complete the grading for the building pad within 45 calendar days of the date the grading contract is signed and to complete all other grading work under such contract within 75 calendar days after such contract is signed. Such deadlines will be extended by one (1) calendar day for each day of delay caused by Force Majeure. "Force Majeure" shall mean labor disputes, acts of God, severe and adverse weather conditions, war, acts of terrorism, riots, or unforeseeable restrictions or regulations imposed by any governmental entity other than Seller. The grading contract will provide for payment to Buyer by the grading contractor of liquidated damages in the amount of \$2,700.00 per day for each day of delay in completion if the work is not completed by the deadline dates listed above.

2. Utilities. Seller will use its best efforts to cause the providers of utilities of water and electric service to extend such service to the boundary of the Property at locations reasonably acceptable to Buyer by May 11, 2013 (temporary supply) and August 31, 2013 (permanent supply), the permanent supply being subject to the ability of TDOT to accommodate the installation of the utilities within the right-of-way as it is constructing the Access Road. Seller will use its best efforts to cause the providers of utilities of gas and sewer to extend such service to the boundaries of the Property at locations reasonably acceptable to Buyer by August 31, 2013.

In addition to the foregoing, Seller will use its best efforts to cause the Tennessee Department of Transportation ("DOT") to extend Henry Drive from the bridge at the boundary of the Property along the side of the Property (with the Property being located on the south and east sides of the road) to a cul-de-sac as shown on Exhibit 2 (both the extension of Henry Drive and the road to the cul-de-sac referred to as the "Access Road") and to complete the construction of such Access Road by October 31, 2013. Upon completion, such Access Road will be dedicated as a public right-of-way. Construction of the Access Road will not be included in the Site Work for purposes of this Agreement, and completion of the Access Road prior to Closing will not be a condition to Buyer's obligation to close.

Seller will also use its best efforts to cause DOT to construct a temporary access road to be completed by the date of completion of the grading for the building pad. Seller will use its best efforts to cause such temporary access road to be suitable by such date to permit Buyer's contractor to have access to the building site in order to bring its construction equipment onto the site to start fine grading and construction of the building foundations. Seller will use its best efforts to cause such temporary access road to be suitable by September 1, 2013, to accept delivery of Buyer's heavy production machinery.

Until the Access Road is dedicated as a public right-of-way, Buyer and its agents, contractors and employees will have an easement for pedestrian and vehicular access, ingress and egress on and across the Access Road, provided it does not interfere with TDOT's construction of the Access Road. Buyer and Seller will enter into an easement agreement at Closing with respect to such access easement.

### SURETY AGREEMENT

THIS AGREEMENT is hereby entered into on this the 28th day of February, 2013, by and between the County of Loudon, Tennessee (hereinafter "County") and Del Conca USA, Inc. (hereinafter "Company").

WHEREAS, Company has entered into a contract (the "Purchase and Sale Agreement") with the property owners, City of Loudon and Loudon County, Tennessee, to purchase certain land containing approximately 30 acres +/- located in Sugarlimb Industrial Park on Henry, Kimberly and Natalie Drives, Loudon, for the construction by Company of a manufacturing facility (the "Site"); and

WHEREAS, before it will be feasible to locate a manufacturing facility on the Site, certain infrastructure must be designed and installed for which local assistance may be obtained through the FastTrack Infrastructure Development Program ("FIDP") and a payment in lieu of taxes program ("PILOT"); and

WHEREAS, the Tennessee Department of Economic and Community Development has extended a proposal to Company, dated October 10, 2012, committing up to \$590,000 under the FIDP to provide funds for certain site improvements including drainage, grading and utility improvements to assist in the location of Company's facility on the Site; and

WHEREAS, Loudon County Commission has passed a Resolution of support and submitted an application under the FIDP through the Tennessee Department of Economic and Community Development; and

WHEREAS, Loudon County and the City of Loudon have also passed Resolutions committing to provide certain site improvements including (i) a pad-ready graded site capable of accommodating a 320,000 sq. ft. manufacturing facility and ancillary parking and access on the Site and (ii) to construct and extend utilities to the property line, (iii) providing the local match for the FIDP program funds received, and (iv) contributing the balance of the costs associated with this Site improvement project ((i) and (ii) collectively referred to herein as the "Project"); and

WHEREAS, both parties realize that in order to expedite the Project in a timely manner, certain costs will be incurred by the County prior to assurances that sufficient revenue will be generated to fund the Project from a PILOT Agreement (the "PILOT Agreement") or from the State of Tennessee under the FIDP, and that until such revenue is realized it will be necessary for the Company to provide adequate surety and/or security in favor of the County as described below; and

WHEREAS, the parties in exchange for the consideration of the mutual covenants and promises as set forth herein and the Resolutions, desire to enter into this agreement for the purpose of expediting the construction of infrastructure and site development improvements making up the Project to serve the Company and the Site.

NOW, THEREFORE, in consideration of the premises set forth herein, the parties expressly agree as follows: Ele folgh.

5096681v12

- County agrees to enter into a contract with the State of Tennessee Department of
  Economic and Community Development for the utilization of funds under the FIDP for
  the Project to enable the future location of the Company in Sugarlimb Industrial Park in
  Loudon, Tennessee.
- 2. County agrees to competitively bid the construction of the Project utilities and site grading in conformity with local and State requirements and to provide cash flow to initially pay all related design and construction invoices for the Project, for which it will be entitled to receive reimbursement from either (i) the funds received through the FIDP and the PILOT, or (ii) the Letter of Credit referenced in Section 3 below (in the event of a "Company Event of Default", as defined in Section 4 below).
- 3. Either the Company or its affiliate, Ceramica Del Conca S.p.A., shall obtain surety and/or security to cover the estimated cost of the Project in the form of an irrevocable letter of credit from Intesa Sanpaolo SpA, New York ("Intesa") in substantially the form attached hereto as Exhibit A, naming the County as beneficiary, prior to the County obligating or committing any funds for the Project. The letter of credit shall be for One Million Five Hundred Thousand U.S. Dollars (U.S. \$1,500,000) (the anticipated cost of the Project) (referred to herein as the "Letter of Credit").
- 4. If Company fails (each such Company failure referred to herein as a "Company Event of Default") to take reasonable steps to cooperate in the application for the FIDP and/or the PILOT program, if it fails to commence, or once commenced fails to continue reasonable progress on the design and construction of its manufacturing facility or if it fails to close on the purchase of the Site for any reason other than (a) the failure of the County to complete the Site Work as described in Exhibit 3 to the Purchase and Sale Agreement; (b) the failure or inability of the County to propose and implement a reasonable cure for a Defect as described in Section 5 of the Purchase and Sale Agreement, a reasonable cure being one for which title insurance could be obtained from the title company insuring Buyer's title in spite of the defect, or (c) the failure of the County to meet its obligations described in Sections 7(a), 7(b), 7(d), 7(h), or 7(i) of the Purchase and Sale Agreement and the failure or inability of the County to propose and implement a reasonable cure for such failure in a reasonable period of time (the matters described in Sections 4(a), 4(b) and 4(c) above referred to herein as a "County Event of Default"), and if the County has incurred unreimbursed reasonable Project expenditures, then County may give Company written notice and demand for reimbursement (the "Demand") up to the amount of the County's unreimbursed reasonable Project expenditures less the local match. For purposes of this provision, "fails to continue reasonable progress" means that progress - on-the construction of the manufacturing tacility has been at such a pace that the ill not be complete and an occupancy permit issued at least forty fixe (45) days prior to the expiration of the Letter of Credit If pursuant to the Demand the Company has not (i) cured the Company Event of Default, (ii) reimbursed County with good funds within thirty (30) days after receipt by Company of the Demand, or (iii) in the event of the Company's failure to commence or once commenced failure to continue reasonable progress on the design and construction of its manufacturing facility, extended the term of the Letter of Credit (in which case the period for which the Company has to complete construction of the manufacturing facility and secure issuance of an occupancy permit described above will be extended by the number of days of the extension of the Letter of Credit), then the County may draw on the Letter of Credit the amount specified in the Demand. Any drawings shall be applied against and reduce the next in time payments

due under the PILOT Agreement. The County may not draw on the Letter of Credit in the event the County has received a good faith notice from the Company of a County Event of Default (a "Company Notice") and (i) such County Event of Default remains uncured or (ii) the Purchase and Sale Agreement has been terminated by the Company as a result of such County Event of Default.

In the event the Company provides a Company Notice, and the County in good faith provides the Company with written notice in reasonable detail indicating the County's disagreement with the Company's position set forth in the Company Notice, the Company will keep the Letter of Credit in full force and effect until the parties have resolved such disagreement. In the event Intesa is unwilling to extend the term of the Letter of Credit, and if the Company does not secure another letter of credit in the amount specified in Section 3 above with another banking institution either (A) chartered in the United States of America, or (B) chartered in Italy (with confirmation by a banking institution chartered in the United States of America), and in form and substance substantially similar to that set forth on Exhibit A, then the County will be entitled to draw upon the Letter of Credit in the amount specified in the County's Demand despite the Company Notice.
